

EMAIL 1 — INTERNAL ALIGNMENT

From: Seungjoon Kim ("Alex") hello@pheeew.com **To:** Jason Ko <[Jason's email]>; Dawon Kim <[Dawon's email]> **Subject:** Pheeew, Inc. — 4-Founder Restructure — Cap Table v2

Jason, Dawon —

Confirming our verbal alignment on the four-Founder restructure. Sending this for the record before I send the formal offer to my brother Junhyuk Kim ("Justin") tomorrow.

Proposal — Junhyuk Kim ("Justin") joins as fourth Founder of Pheeew, Inc.

1. Equity (whole-number splits, all >20%, hierarchy by founding-order and capital):

FOUNDER	ISSUED %	METHOD
Seungjoon Kim ("Alex")	24%	Refresh grant: +141,428 shares
Jason Ko	23%	Refresh grant: +184,286 shares
Junhyuk Kim ("Justin")	22%	New grant: 3,017,143 shares
Dawon Kim	21%	No new shares; dilution only (existing 2,880,000)
Equity Incentive Pool	10%	Top-up to 1,371,429 (reserved, unallocated)
Total fully diluted	100%	13,714,286 shares

2. Capital — Junhyuk contributes \$30,000.00 to Pheeew, Inc.:

- \$6,818.74 stock purchase price (3,017,143 shares × \$0.00226 per share — same FMV used in our existing 83(b) elections);
- \$23,181.26 voluntary Additional Paid-in Capital (no additional shares issued for this portion);
- Total founder capital contributed to date: \$50,736.12.
- No SAFE round; full bootstrap.

3. Role — Chief Growth Officer (CGO). Four-year vest, one-year cliff. Front-of-house: partnerships, creator/influencer sourcing, retail buyer outreach, investor sourcing, marketing, and business development. Coordinates with Jason on operations for growth-related expense budgets.

4. Dawon — 83(b) impact (none). Your existing 83(b) election is unchanged. Your share count (2,880,000), vesting schedule, and FMV at original grant (\$0.00226) are not modified. The restructure dilutes your fully-diluted percentage from 28.8% to 21% via the math of new shares being issued — not by modifying your grant. Your CAA-filed ITIN paperwork stays untouched. No re-filing required.

(I and Jason each need to file new 83(b) elections for our refresh increments — small share counts, low tax impact: ~320 and 417 of FMV recognized respectively, which equals the price paid, so \$0 income inclusion.)

5. Roles updated for all four (per the R&R Framework):

FOUNDER	TITLE	SCOPE
Seungjoon Kim	CEO + Secretary	Strategy, vision, fundraising, governance; founder safety net
Jason Ko	COO	Operations, finance, legal, supply chain, tech stack
Junhyuk Kim	CGO	Partnerships, creator outreach, retail, investor sourcing, marketing
Dawon Kim	CBO	Brand identity, voice, design system, content, customer experience

6. Dawon — title change to Chief Brand Officer (was CDO). Reflects that you own the full brand — voice, design, content, customer experience — not visual design alone.

If anything above does not match what we discussed, reply before EOD today. If aligned, I will send Junhyuk the formal offer tomorrow morning and copy you both.

— Seungjoon ("Alex")
