R&R FRAMEWORK — see live document The role-based, open-ended R&R for all 4 founders is documented at: <https://allvitalorganics.github.io/pheew-live/team/> Passcode: pheew-team-2026

This page also has the Collaboration Principle the 4 of us are agreeing to: roles define ownership, not boundaries. In the bootstrap phase, every founder steps into another's domain when help is needed. CEO Alex assists proactively across all domains as a baseline.

NEXT STEPS IF YOU ACCEPT

1. Reply with "Accepted" by EOD tomorrow.
2. I'll engage the corporate workflow this week — board resolution + stockholder consent + Delaware Certificate of Amendment + your RSPA + your 83(b) draft + updated Founders' Agreement.
3. You sign + wire \$30K within 5 days of receiving documents.
4. We file your 83(b) by USPS Certified Mail within 30 days of grant.
5. We update the cap table v2 and you're a founder.

I want to be transparent: we are NOT engaging an attorney. Pheew has been entirely self-managed corporate-wise since incorporation. All templates exist from previous restructures (when Jason and Dawon joined as co-founders). I'll execute Justin's onboarding using the same templates with strict adherence to Delaware corporate law and IRS 83(b) timing. If at any step you'd prefer outside counsel review, I'll pause and engage one — your call.

If Yes, reply "Accepted." If you have questions or want to renegotiate anything, reply with what you'd like to discuss.
